

Training/Education

Medical Students - the practice has been involved in the teaching of medical students from the University of Aberdeen for many years. This means that a Medical Student may be present with the doctor during your consultation. If you wish to be seen on your own then please speak to the receptionist or doctor and this will be arranged.

Foundation Year 2 (Junior Doctors) - the practice is involved in the training of junior doctors, who shall consult under supervision with patients during their 4 month attachment.

GP Specialty Trainees - the practice is involved in the training of GP trainees who will consult with patients under supervision during their time in the practice.
